Alternative and Flexible Regulation.)

This matter comes before the Public Service Commission of South Carolina (the Commission) on the filing of a tariff revision for approval by Momentum Telecom, Inc. (Momentum or the Company). This filing increases the maximum rates of the monthly recurring charges for standard residence local exchange service and standard business local exchange service. The standard residence local exchange service product has not been available to new customers since grandfathered effective July 10, 2003. The standard business local exchange service product has not been available since grandfathered effective September 19, 2003. The Company proposes to increase the maximum rate for the standard residence local exchange service by \$4.00 and increase the maximum rate for the standard business local exchange service for rate groups 1-3 up to \$37.65. Upon approval of this filing, the Company plans to increase the current rate for standard residence local exchange service by \$3.00 and the business local exchange

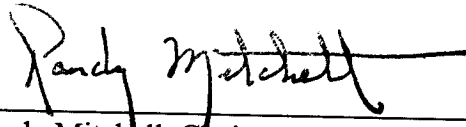

service by \$3.00. These maximum rate revisions are for grandfathered products and do not impact the general body of ratepayers.

Pursuant to the instructions of the Commission's Docketing Department, the Company published a Notice of Filing in newspapers of general circulation in the Company's service areas. No Protests or Petitions to Intervene were filed. Further, no opposition to the tariff revision was received from the Office of Regulatory Staff (ORS). Accordingly, we will proceed with summary disposition of the matter.

After due consideration, we believe that the proposed revisions are reasonable. The revisions apply only to grandfathered products and not to the general body of ratepayers of the Company. Accordingly, we approve the tariff revision as filed.

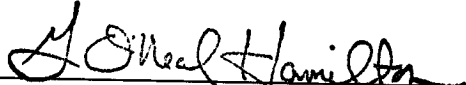

This Order shall remain in full force and effect until further Order of the Commission.
